## *In Brief*

*A Place Apart is a community of Jesus' followers, seeking to develop monastic communities in the local church.*

*A Place Apart's unique ministry will center around a physical place that will be monastery, farm, and wilderness where people can come apart from the world to receive training in a monastically-styled life.*

*This physical place is currently in the development phase, with staff actively searching for land, even as we search for the heart and mind of Christ and for a deeper connection to all that God has created. We encourage your prayers and support.*
